

FOR IMMEDIATE RELEASE

Fayette Pipe Introduces Schedule 80 Black Steel Pipe

LEMONT FURNACE, Pa., December 20, 2023 – Fayette Pipe has announced the launch of its USA-made ASTM A53 Type E Grade A ERW XH Schedule 80 black steel pipe for steam, water, gas, or air lines.

Fayette's extra heavy Schedule 80 is available in diameters of 1/2" to 1-1/2" and from 10' up to 21' in length in plain, threaded, and coupling ends. It is suitable for welding and threading. Schedule 80 is ready for shipment anywhere in the continental United States. All Fayette Pipe products are hydrostatic and nondestructive electric tested to ensure the highest quality.

The company also manufactures Schedule 10 and 40 American-made and melted black steel pipe, used in fire sprinkler, HVAC, and low-pressure plumbing applications. It also produces a variety of black carbon and zinc-plated pipe nipples and fittings under the Fayette Nipple brand.

Chris Gearing, vice president of Fayette Pipe, said, "The introduction of our Schedule 80 black steel pipe expands our already diverse product portfolio, ensuring that we continue to meet and exceed the evolving needs of our clients. Our commitment to producing top-quality, American-made steel products remain our top priority as we strive to support various industries with reliable and innovative solutions."

Schedule 80 submittal data sheet is available at www.fayettepipe.com
